DETAILED ACTION

Claims 1-8 are pending.

In the response filed on 4/2/07 to the restriction requirement, Applicant elected with traverse Group I claims 1-5 and calcium carbonate as the species. Applicant traversed that a search for one group would necessarily identify art pertinent to the other groups. The Examiner cannot agree. The process claims require searching for the individual steps while the product claims require searching for the individual components. Thus, there are two separate searches, which represent an undue burden of search on the Examiner. The restriction is maintained and made FINAL.

Claims 6-8 are withdrawn from consideration as being drawn to non-elected subject matter. Claims 1-5 are under examination.

Comment: At the top of page 1 of the specification, please insert --- This application is a 371 of PCT/FR03/02254 filed on 07/16/2003 and claims benefit to foreign application France 02/09015 filed on 07/17/2002. ---

Please remove the "5" in line 3 of the Abstract.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Art Unit: 1616

Claim Objections

Claims 4 and 5 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim *cannot depend from any other multiple dependent claim*. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim is indefinite because of its failure to recite any active positive steps delimiting how this process is actually practiced. Claims 2 and 3 are rejected as being indefinite because they are dependent on an indefinite base claim.

Claim Rejections - 35 USC § 112

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent

protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 3 recites the broad recitation "between 0.01 % and 10 %", and the claim also recites "between 0.1 % and 2 %" which is the narrower statement of the range/limitation.

Conclusion

No claims are allowed.

When the claims are amended to conform to US practice, the claims will be fully examined on the merits.
